

Patent Application of Todd Phillip Bredeson

for “Backpack for Tractor seat – Cargo Carrying” continued

Page 5

CLAIM:

A seat-back cincturing, item stowage device comprising:

- (a) main-body of pliable material equipped with and adjustable fastening system and,
- (b) pockets of pliable material,
- (c) a plurality of said pockets attached to said main-body and,
- (d) straps of pliant material equipped with fasteners,
- (e) said straps attached to said main-body,

whereby said elements form a cincturing device, whereby said device captures said seat-back, whereby locating said pockets and straps in a fashion that allows stowage of items.
